

Summer Holidays Assignment (2023-2024)

Class III

*Hot sizzling summer reminds us of the time,
To relax and learn with some crazy ideas and fun.*

*Blend enjoyment with learning and introspection,
To fetch glory and attain perfection.*

Dear Students and Parents

It's summertime when faces light up with smiles.

It's time for the children to play, relax and enjoy as summer vacation is the time they eagerly await for. Also, this is the time to unlock the days creatively making the most while at home. Along with the break, come many opportunities for your child to share new discoveries in reading, baking, gardening, painting, drawing and even composing their own songs or taking up any hobby.

Here are the ways by which you can make the holidays fun and meaningful at the same time :

- Provide your child with some quiet reading time. Set aside fifteen or twenty minutes each day for your child to relax and curl up with a good book.
- Ask your child to help you in doing small household chores like cleaning the cupboards, watering the plants, making the bed, serving meals. Helping in the kitchen can be fun too.
- Don't let them become a couch potato!! **REDUCE SCREEN TIME.** Instead make them play interesting games like Scrabble, Pictionary, Chess etc.
- Encourage them to exercise or take up a sport and be fit.
- Take them to parks where they can spend time observing the wonders of blooming of flowers, sprouting of new leaves, rising or setting of the sun, flock of birds taking off or coming back to roost etc

As the school announces the summer break, we want to ensure that the children have a constructive vacation. With this thought some holidays' homework is being given which will keep the child active and observant. The work can easily be done by the students with a little assistance, only when required.

Follow the guidelines given by teachers to complete specific activities.
