EDITORIAL

Education, extends beyond the academic discourse, it involves essential learning experiences and life skills. When given the right encouragement and opportunities, students like to participate in various extra curricular endeavours. These activities engage the students in a passionate pursuit of excellence and enrich their knowledge of the self and society. Prabhu Dayal Public School's philosophy rightly advocates a healthy synthesis of academics and extra curricular activities.

'Blue Streak' (e-newsletter) covers all aspects of school's performance. A sincere thanks to all contributors who have worked diligently to make this a reality and above all our revered Principal, Dr. (Mrs.) Anita Aggarwal for being a constant beacon of light and inspiration for all.

Best Wishes!!

मेरी इच्छा

मेरी इच्छा है कि पूरे विश्व के लोगो को साथ में लाने की,
पूरे विश्व को जुल्म से मुक्त कराने की।
हम सब विश्व के निवासी भाई—बंधु तो जरूर है,
तो गरीब भाई—बहनों को मदद करना अनुकूल है।
पैसों की वजह से,
हर रोज़ गरीब किसान आत्महत्या करते हैं बेचारे,
और झूठे विश्व के नेता अमीर होकर अपना गरीबी का दुख बखारें।
मेरी इच्छा है कि पैसों और राजनीति को बंद करवाऊँ
और पूरे विश्व में खुशियाँ ही खुशियाँ फैलाऊँ।

PENNED THOUGHTS.....

THE CHOICE

When I woke up this morning,
On the seashore I saw,
A little bird was mourning,
And on something static was its claw.
I walked past the cluttered streets,
On the filthy sand there lay
A dead bird with a dozen swarming bees
And a plastic bottle which it mistook as its prey.
With the bottle stuck in its throat,
The poor bird had choked
And as I heard the bird troat
Away from it on the beach I walked
The beach had more junk than the people it had
The latter fell in number on the chairs sat
With plastic bottles, bags and cans on the sand.
And in the water the nature's heirs for mercy pled
The plastic had devastated their lives and their home,
But humans instead of nature chose their selfish goals.
And I thought while walking back to the dome
When humans control nature, in danger are everyone's souls.

ANSWER ME

They say, "Time flies."

They say, "Time heals everything"

They say, "Everything changes with time"

But ;

Did our society fly high?

Did our society heal every word it gave us?

Well, No!

We didn't fly high enough,

Didn't heal the wound of racism, discrimination, foeticide, terrorism
and,

No, I don't want to depress you anymore!

They say, "Good things take time."

"How much more time do you need!"

People were send to the space and to the moon

And came back,

And you are here saying that the moon is 'white'

And the space is 'black'

And you are sending my sisters forcibly

To a stranger's house

They say, "God is one".

Did he, "your God", tell you take away innocent lives?"

Answer me!

They say, "Spread love."

They say, "Spread positivity."

They say, "Make world a better place."

What do they just say?

They even say, "Actions speak more than words!"

Well, I can't see these actions, are they playin' hide and seek?

ANSWER ME!

MIND

It was a hot summer day in December and monsoon was at its peak. Tulips were blossoming and raindrops were falling down, tripping over their own feet, breaking their legs. There was no turbulence but no calmness either. It was an era where old myths didn't matter and hope was music of the soul. It was an enigma. It was our mind.

Our mind is a tool so powerful that it can transcend the laws of the universe, it can escape the black hole and it can award a whole new definition to our psyche.

MIND How do I even being to describe it? It's beyond our finite comprehension. It's endless, limitless. What are we without our minds? We are nothing but infested roots and hollow shells of suffocating arms and futile attempts. The beauty of our mind's complexities cannot be described in mere words as words are highly unpredictable creatures. Our mind too is unpredictable but unlike robots, it has the capability to build castles and rule kingdoms and break free of the cage of limitations and restrictions. It observes all the mundane, the celestial, the lucent, the opaque.

The mind is like a mirror. It reflects what it sees-feed it benevolence and you could win a losing battle. Feed it malevolence and you would end up fighting a losing battle.
