11	House Activity
12	Class Activity

TEACHING LEARNING STRATEGIES:

METHODS

Teachers use a wide range of methods to promote interaction during regular class periods. These methods include traditional textbook method supplemented by discussions and practical work. Experimentation and lecture methods are mainly adopted for teaching General Science.. Language periods are blended with group discussions etc.

SKILLS

This includes holistic development of the child such as the mental, physical, emotional and psychic and spiritual development, scientific temperament amongst studies etc.

VALUE BASED EDUCATION

The institution believes in the ideology of “Trust Thyself” which is the building block of its system. Every student aims to become:

- Progressive by nature
- Strides towards perfection
- Always aims high
- Tries to achieve his aims by honesty and integrity.

EVALUATION AND ASSESSMENT

Exams are a built-in tool to test the knowledge assimilated by a child. In Question Paper the following criteria is taken: Understanding, Knowledge and Application.

- Continuous assessment is done in classes VI to VIII and students are awarded grades.
- Four formative tests and two Summative tests are taken in a year. Grades are awarded for all the assessments.
